Podbharti.com : Hindi Podcasts

With podcasting catching up in India, Hindi bloggers couldn't have stayed far behind. So here comes a great new website to cater to the growing gap, called PodBharti.com which gives you podcasts purely in Hindi. Started by Debashish Chakrabarty and Shashi Singh, PodBharti gives you News and Views and stories from the blogosphere, completely in Hindi. They have also tied up with The IndiCast.

Of late, the number of Hindi Bloggers has been rising, and a few like Hindi portal Lokmanch and Hindi Blogzine Nirantar have already left a mark on the Blogosphere. Google too seems to have woken up to the fact, and now offer built in support for blogging in Hindi.
